Memorandum 25X1A9a No. 3039
MEMORANDUM FOR: [REDACTED]

Attention: [REDACTED]

Subject: Miscellaneous items

25X1A9a

1. [REDACTED] is currently working on a schedule of training, travel, and overlap that should bring him [REDACTED] in late June. I believe the resulting 4 - 4½ weeks should prove adequate. Dick has had excellent practical experience in the [REDACTED] and will require only minimum guidance in that aspect of St/I operations. I'm hoping they can arrange thorough briefing sessions around the community so that he will have as much background as possible. All in all, I'm very pleased with his being selected and know he will be a fine replacement. 25X1X4

2. Most enthusiastic about your forthcoming trip late in March. Couldn't you make that train trip from Warsaw to Prague a daylight run rather than overnight? Once in Prague the G-Area's interest is for you to travel (if possible) in the Slovakia area. You are on your own as to points of interest but you have the over-all requirements in mind, I'm sure.

3. Re. your proposed Western Europe itinerary:

a. Suggest either
a tossup. 25X1A9a

b. I don't believe trying to see [REDACTED] under the conditions of a "visit" will be practical. He is not very approachable unless you have a specific problem or are to study with him, etc. 25X1X6

c. Both stops you propose in Italy are well worth your time.

d. The Landestopographie is an excellent example of topographic mapping. 25X1X6

e. Germany selection is O.K. - I don't know [REDACTED]

f. The Topografisch Dienst is interesting but not too different from other topo outfits - use your judgment. The ITI is well worth seeing.

4. How do you propose making your contacts? Will you use Henry and Dean? However you arrange it, keep in mind that those of us who have preceded you were [REDACTED]

Memorandum for: 25X1A9a [REDACTED] Subject: Miscel. items

25X1X7 5. 25X1A9a [REDACTED] will attend the Second International Cartographic Course in Zurich, 7 March - 30 April. She will visit selected cartographic shops in Italy, S. Germany, France, and England after the course. The Swiss visits will be while in attendance. She expects to arrive in your fair city approximately 18 May and will want to visit [REDACTED] I'm hoping you will be able to arrange for an introduction to [REDACTED] No doubt she will contact you later as to exact dates.

25X1X7

6. Bernie returned with much enthusiasm and is on his first full color experiment. We hope this will be a practical venture for the production of terrain plates. He gave me additional information on the Goodson model and we will try to get the report from AMS. It might have application here in the Agency.

7. Life goes on in Bldg. 11.
